

INDIVIDUAL EXPEDITION TO **MT. KAZBEK**

(5054 M A.S.L.)

RENTING GUIDE TO MT. KAZBEK

The offer includes renting an experienced and certified guide to lead the expedition to Mt. Kazbek (5054 m a.s.l.) for an individual group (maximum 3 persons per one guide) for a maximum of 6 days of the mountain action.

The plan of our expeditions has been prepared by us so that each of you will be able to get Mt. Kazbek in the maximal possible way. The plan assumes a gradual acclimatization, spreading the whole mountain action for a few days and a backup day, which will allow you to face the mountain safely if you are in good physical condition and do not have health contraindications (even without previous experience in high mountains). The most important thing is that during the whole trip you will be accompanied by our high-mountain guide (also trained in the field of emergency medical services in the mountains), who will be responsible for your safety. Our guides speak English or Russian on the level enabling trouble-free communication at every stage of the trip. **As the only mountain agency we lead groups to Kazbek according to European standards, that is one guide for 3 participants of the expedition. This guarantees maximum**

safety during the mountain action, as well as maximum chances of reaching the summit. It is also important that we will assist you in preparing for the expedition at each stage – you will get access to a closed group on Facebook for participants of the expeditions, where we will talk, motivate, exchange advice, etc., and also take part in the training before the expedition (through an online platform), which will help you to prepare for the meeting with Mt. Kazbek even better. Of course you can ask us anything via e-mail and our Facebook page. In addition we can arrange transfers from airports in Tbilisi or Kutaisi to Stepancminda, as well as transfer from Stepancminda to Mt. Elbrus in Russia (for those who want to reach two Caucasian giants) or horse rental for transporting your luggage to Meteo Station. In our office in Stepancminda you can buy gas for cookers and jetboils, trekking maps and lyophilisates.

We meet at the place where our expedition starts, in Stepancminda, in our office. If you do not have your equipment with you, you can rent with us everything you need for peak attack. In our office you can also buy gas for tourist cookers and lyophilized products. You can also leave a deposit with us, which is all you do not need during the mountain action. Then we start our trip to the top of Mt. Kazbek. We can get to the hill, where the church of the Holy Trinity is located and where the route to Kazbek begins (2170 m a.s.l.) on off-road vehicles. If you additionally purchase a main luggage transport by the horses, your luggage will be packed and then transported straight to the Meteo Station, and you will trek only with small backpacks. The estimated time of trekking for this day is 7 - 8 hours. After this time we come to the Meteo Station - 3650 m a.s.l., where we will set up a camp (accommodation in tents, price: 20 gel for one tent for one night). You can also stay at Meteo Station (price: 60 gel for one person for one night). During the trip we will prepare all meals on our own.

Important: The route to the Meteo Station can also be covered in two days. In this variant on the first day we reach the river where we stay for the night - approx. 3100 m a.s.l. and the next day we go to the Meteo Station. In this case, everyday we have about 4 hours of trekking. Horses with main luggage go directly to the Meteo Station. In this case you will not get there until the next day, so in small backpacks you must have everything you need during two days (the first day 4 hours of trekking + night in tents and the second day - 4 hours of trekking). We recommend this variant because it allows you to acclimatise better.

Mountain Freaks are true professionals and do an amazing job. Fantastic team with a lot of passion for the business and for the clients.

Me and my wife did a private expedition to Kazbek without any previous experience. Preparation was easy and communication was smooth. They have many blog posts and detailed explanations about the expeditions on their website and social media as well. Our guide Ramazi was excellent and easy to communicate with. Very much recommended for anyone with a thirst for adventure!

Positive: Professionalism, Quality, Responsiveness, Value

We joined an expedition to mount Kazbek recently and had the experience of a lifetime. In the months leading up to the trip Aga fielded dozens of questions and during our stay she continued to oversee every aspect. Our expedition leader Ewa was clear and extremely knowledgeable in the mountains. Our guide Lexo was literally a life-saver. All the staff were helpful and patient. Highly recommended. N.B. if you need to rent gear do so early as there is limited availability.
